BOUMERDES, 21 March 2019  
job applications

Dear Sir/Madam,

Currently looking for a job, I have the honor to offer you my application for a position at your company.

Holder of a diploma of designer of information systems "CSI", I exercise this profession for five years now. I have the sense of contact, a certain taste for the organization and above all I am passionate about my job and new information technologies.

My strong interest in web, webmarketing and the new digital communication methods made me turn naturally to this sector which is for me a vocation before being a profession. I like to feel useful within a company, to put my skills to the benefit of everyone and to collaborate with others.

I would love to join your team, working for your company would be a pride given its prestige and fame. I will be fully satisfied to bring my dynamism and my enthusiasm within your company.

With my experience of general manager in my own company in Algeria, I acquired a certain mastery and I exercise my profession with envy, will and passion.

Also I hope to match one of your profile research. I hope you will give me the opportunity to put my strong skills and abilities at the service of your business.

Aware that this letter can not suffice, I enclose my curriculum vitae which will bring you more information. In addition I remain at your disposal to arrange an interview at your convenience.

I beg you to believe, Madam, Sir, in the expression of my respectful greetings.

Yours faithfully,

AZZI LYDIA

 Enclosed: Curriculum vitae
